THE NORTH AMERICAN COUNCIL FOR ANTHROPOSOPHIC CURATIVE EDUCATION & SOCIAL THERAPY

Spring conference
April 27th-29th 2018

Creating Spaces:
the Social Art & Community Living

maison Emmanuel
Centre Éducatif

Val David & Val Morin, Quebec

An exploration of the social art of community living, and how we can co-create the spaces for such artistry to live

Following on from the theme of our 2017 conference, the Arts and Social Change, the theme of this year's conference aims to deepen this exploration, looking at the Social Art of living together, not only in intentional communities, but as citizens and neighbors.

Working with the idea of the six archetypal art forms- architecture, sculpture, painting, music, poetry, eurythmy (movement), we hope to explore how each of these contributes and can be transformed in to the Social Art.

What does it mean to be a social artist?
How can I practice art in my daily life?

We will explore these questions through presentations, discussion, movement, music and artistic work. Bring your experiences, your art and yourselves!

The conference will take place in Val David, home to one of Maison Emmanuel's residential houses, our café and boutique and pottery workshops, and in Val Morin, where Maison Emmanuel has four homes around our farm and garden.
